

ISO 50001

ENERGY MANAGEMENT SYSTEM

 **TORQUE ENERGY CONSULTANTS**

BENIFITS

ISO 50001 is the globally recognised Energy Management System Standard. Reduced greenhouse gas (GHG) emissions and limited carbon footprint while making efficient use of energy are some the key benefits of ISO 50001.

FIVE STEPS TOWARDS CERTIFICATION

- Gap Assessment
- EnMS Strategy and Design
- EnMS Population
- EnMS Operation
- Certification by an accredited Certification body

7-C IMPACT POINTS

- Consumption, cost, carbon reduction
- Compliance including ESOS
- Competitiveness advantages
- Competence demonstration
- Continuity when key staff change
- Continual improvement in performance
- Culture change in saving energy
